

Directions to Download the Decision Support Tool and the Self Sustaining Workshop Tool.

In order to download these tools onto your computer:

1. First create a new folder and name it (i.e. DSS or SSW)
2. Then click on the links below to download the file onto your own computer.
3. Ensure all files are contained in the new folder. (For the Self-Sustaining Workshop tool (SSW) you should see three files. For the Decision Support too (DSS) you should see five files.
4. To run the program, open the "START.exe" file.
